

TRAINING OBJECTIVES (Medium Intensity)

- To brief participants on progress being made in the Minnesota adult mental health system and address ongoing challenges
- To provide an overview of the network of mental health resources available in the five counties and explain how they work together to support adults with mental illness at medium levels of intensity.
- To provide information about the network of resources in each of the five counties
- To provide an interactive learning opportunity that will illuminate information presented through discussion of case studies
- To give professionals who work in or interact with the mental health system a better understanding of the system so they can be a better resource to adults with mental health issues
- To respond interactively to questions and comments
