

# Paint the town Green

**May 12th - May 16th 2025**

## Mental Health Awareness Week

Help us “stomp out” the stigma and raise awareness in our community, by decorating the front of your business in green or by wearing green during the week to support mental health awareness. Throughout the week we will be posting pictures through our social media page highlighting business support. Together we can help those suffering, by creating an environment of acceptance and encouragement to seek the supportive services necessary and not feel alone. Then, please join us Friday May 16th from 11:30-1:00 at 1106 Broadway, to finish off the week for the annual Mental Health Walk. We will walk to City Hall and back and then gather for a light lunch after.
